**BOSCH**  
Invented for life

### Why Choose Bosch Bulbs?

Bosch automotive bulbs meet the most stringent quality standards because when it comes to repairs we believe a properly functioning lighting system is a top priority - using the famous Bosch quality. As well as our customers' requirements, we are guided by statutory regulations. In terms of service life, Bosch automotive bulbs far surpass legal requirements.

### Eco Range

For value-oriented customers expecting both a value-based repair and reliable Bosch quality, the Bosch Eco range of automotive bulbs is the ideal solution. The Bosch Eco range comprises the 25 most common types of bulbs and thus covers a large variety of vehicles on the market.

**NEW!**

### Standard Range

- ▶ Comprehensive range provides more than 98% market coverage
- ▶ New packaging for both trade and retail with the visible UK short code and halogen number for easy identification
- ▶ Includes 6V, 12V and 24V headlamp bulbs and auxiliary bulbs

### Upgrade Range

- ▶ Longlife bulbs: up to 3 times more service life and up to 10% more light\*
- ▶ Plus 50: up to 50% more light\*
- ▶ Plus 90: up to 90% more light\*
- ▶ Plus 120 (Gigalight): up to 120% more light\*
- ▶ And more; Xenon Blue and Xenon Silver
- ▶ Magic Effect and Rallye bulbs

\* Compared to standard bulbs

### Xenon Gas-Discharged Range

- ▶ Bulbs that generate 2.5 times more light than conventional bulbs using an arc
- ▶ Provide further illumination of the road due to a high light yield
- ▶ State-of-the-art technology results in a much longer service life
- ▶ Do not require a glow filament, which increases the durability

Range Available **D1S** **D2R** **D2S** **D3S** **D4S**

### Bulbs Summary:

- ▶ Original equipment specification product
- ▶ E1 approved
- ▶ Highly durable with excellent service life
- ▶ Range includes standard and upgrade bulbs
